

VETERINARY PALLIATIVE AND END OF LIFE CARE TRAINING

Dr. Jackie Campbell and Rosie Overfield

OVERVIEW

Palliative medicine is an emerging field of care and one which requires unique clinical skills in order to best serve the needs of our patients and clients. As veterinary professionals, becoming a palliative care aware team gives us an incredible opportunity to rethink the care model, improve the quality of life for ageing and terminal pets, and strengthen bonds with clients.

TRAINING PROGRAMS

Join the industry's leading voices in palliative and end of life training and education.

LIVE ONLINE WEBINARS (1 HOUR)

- Topics include understanding palliative care in practice, improving the euthanasia experience, handling challenging euthanasia situations, and supporting grieving clients.

LIVE ONLINE WORKSHOPS (3 HOURS)

- Half-day live webinars specifically focused on building a palliative care consulting program in your practice. Topics include defining palliative care advocacy, *the five competencies of a successful palliative care program*, critical resources, clinical communication skills and referral pathways for your practice.

HALF DAY AND FULL DAY TEAM WORKSHOPS

- The ultimate program and business development opportunity, covering the above topics as well as a comprehensive practice toolkit and coaching from industry leaders, Dr. Jackie Campbell and Rosie Overfield. They will lead the implementation of your Palliative Care Program and provide post-training support as required.

HOW WE HELP

- Learn skills to increase patient quality of life and facilitate an improved end-of-life journey for your patients
- Develop techniques to strengthen relationships with clients
- Create a palliative care consulting program that adds to the bottom line
- Improve death literacy, staff confidence around euthanasia and role satisfaction across the entire veterinary team
