

WELCOME

TO THE AMBASSADOR PROGRAM

Dear Ambassador,

Like you, we are passionate about pets. As one of Australia's first dedicated veterinary palliative care services, we are working to educate and build awareness on the importance of veterinary palliative care. Our goal is for all pets to receive the comfort care they deserve when they need a bit of extra love and care at the end.

To achieve this, we need caring individuals like yourself to join the Ambassador Program.

If you have experienced caring for a pet that is struggling or terminally ill, you probably know all too well how distressful this can be. Owners often want to know what else can be done to make their pets more comfortable and many need ongoing emotional support during this time. And for busy general health practices, allocating time in a clinic for quality end-of-life care can be challenging, not to mention the added and unwanted stress a clinic and car ride can add to a pet already struggling. Palliative care is about comfort care, not curative care, and this is just one of the reasons we believe this type of care should be provided from the comfort of home. Our team of mobile veterinarians focus on working with owners to deliver the very best pain management and symptom control, whilst helping to educate families about quality of life concerns and supporting them through the euthanasia decision.

We believe palliative care is crucial for terminally ill or senior pets. As part of the Ambassador program, we ask you to lend your voice to the cause and use your influence to build the pet palliative care movement by spreading awareness and educating people in your circle. Every little bit counts and it's our hope that we can encourage more families to ask their Veterinarians about palliative care services, leading to better symptom management and pain control for pets in their final days.

You'll find a range of resources [HERE](#) to help you spread the word and raise awareness of the new standard of care available for pets and their owners.

Please feel free to contact us at any time for further information at info@sunsetvets.com.au.

Sincerely,

Dr Jackie Campbell BVSc hons, Dip CMT
