

## Compassion. Advice. Support.

At Sunset Vets, we know just how difficult receiving a terminal diagnosis for your pet, or watching them age can be.

Whether you're looking for palliative care for your loved one, or to be able to say a gentle goodbye at home, our compassionate Veterinarians are here for you.

We are experts at navigating the end-of-life pet journey. Reach out to chat to our team about how we can best support you.

# Our Services

## In-Home Euthanasia

The decision to say goodbye to a pet is difficult and it's one that no owner takes lightly, but with our support, it's one you'll never have to make alone. We will assist you in arranging a compassionate in-home euthanasia for your beautiful pet. At Sunset Vets, we want you to feel comfortable with every care decision made for your pet. We can help you navigate decisions on just about everything – from the timing of a home euthanasia visit, to whether kids should be present, to your options for burial or cremation.

## Palliative Care

We know that the end of life is a period where our pets' sometimes need a little extra TLC and for families who are nearing the end with their pets, the support of a palliative care team can make all the difference. Instead of focusing on curative outcomes of care, we are aiming to deliver comfort care. Our core priority is to ensure we are identifying and managing anything that may cause your pet pain and helping you to prepare well for the end stages of care.

## Counselling and Support

Our team know that the loss or illness of a best friend hurts and sometimes talking things through can help. The Sunset Vets team are here to provide help and advice for any counselling and support services you may need. This includes supporting you through the care-giving phase or guiding you through the difficult process of letting go. We are here to connect you with a range of professional counselling and support grief services during the palliative and end-of-life journey.

The whole process was made so much easier with the care and compassion from Sunset Vets. Dr Serena was very empathetic and helped to make a difficult time as stress free as it could be, allowing our beautiful 15yo to pass in the comfort of her own home surrounded by family.

Dr Monika the genuine love and care you showed us and Reggie during a very difficult time was truly beautiful and we knew Reggie was in good hands.

It was so difficult saying goodbye but we knew he drifted off in the most peaceful way possible knowing he was loved and with our arms around him.

**Tess | Sunshine Coast**

---

Very happy with this service. Extremely empathetic during such a difficult process.

Our pet was treated with the utmost respect and care the whole way and my husband and I were informed about the process every step of the way. Would recommend Sunset Vets as we received a professional service during such a hard time for our family.

**Bianka | Brisbane**

Sunset Vets provide the most wonderful care throughout the whole process. Everyone I have spoken to on the phone has been extremely sensitive and compassionate and Dr. Carrie is just beautiful. She turned a distressing time into a peaceful passing.

My beloved Daisy went to sleep on my lap purring. I couldn't have asked for more. I was rung the next day as a follow up and assured that I could ring again if I needed support. Having had such a positive experience, I would only ever use Sunset vets again.

**Annabel | Gold Coast**

---

We cannot recommend Sunset Vet more if I tried. These guys stepped up to the plate with virtually no notice and with more compassion and care than I have ever seen.

We would really love to specifically thank from the bottom of our hearts Gayle in reception and Dr Julia who made the most devastating moment for our family the most loving and peaceful farewell we could have hoped for.

**Dazza | Brisbane**
